Peter Milligan : The Further Adventures of Cyclops and Phoenix before purchasing it in order to gage whether or not it would be worth my time, and all praised The Further Adventures of Cyclops and Phoenix:

0 of 0 people found the following review helpful. AwesomeBy Kindle CustomerSinister is my favorite villain. Without a doubt one of the best, most evil bastards out there. And the way he manipulates others is awesome0 of 0 people found the following review helpful. Perfect. Just perfect.By Jorge Emilio JackyPerfect service and quality of the product. As a long time fan of the X-men and Mr. Sinister I'm more than happy with this buy. I highly recommend

it.2 of 2 people found the following review helpful. Mr. Sinister's originBy Madelyn PryorThe Further Adventures of Cyclops and Phoenix takes place in 1859 and retells the origin of Mister Sinister. He begins the tale as Nathaniel Essex, brilliant but misunderstood scientist who, in the age of creationism believes in evolution. Even Darwin thinks Essex insane. Driven by the death of the deformed son he was unable to save, and fear for the unborn child his wife is carrying he is soon pushing past morality into monstrosity. When a band of thugs Essex employs, named Marauders, set out to collect mutants they accidentally awaken Apocalypse. That's when Apocalypse begins the task of turning Essex into Sinister. The dialogue is solid, the art is dark, heavy, and moody, which is perfect for the feeling of the book. The bad news is the inclusion of Cyclops and Phoenix. Transported to the past by Sanctity, their presence feels forced, and could be excluded entirely. It feels like they were only added to boost sales. The good and bad balance here to make this a readable, but not spectacular book. I recommend it for X-Men fans, but I do not recommend it for new comic book readers due to the messy continuity.

Trade paperback collection.
