It's one of about 7-8 cigar books I bought recently and am reading to learn / enjoy more about cigars. Worth having in your collection if you like reading about cigars.1 of 1 people found the following review helpful. I personally loved his accounts of smoking throughout various countriesBy Trainer CBExtremely informative and detailed. I personally loved his accounts of smoking throughout various countries. I Found my mouth consistently watering while reading. Of course it feels dated, but cigar smoking is a timeless hobby. All the information is completely relatable to modern day smokes. If you call yourself a connoisseur or are even a beginner, this book has its place in your bookshelf (also makes a fantastic coffee table book). Great job, Paul. Buy this now to dive deeper in the hobby!1 of 1 people found the following review helpful. ... introduced to PG cigars not too long and was pretty excited to find this guide written by Paul GarmirianBy Daniell was introduced to PG cigars not too long and was pretty excited to find this guide written by Paul Garmirian.
