Seeing Dots By Melanie Gilbert Connecting the dots isnt childs play in Book 1 of the Greatest Dot-to-Dot Adventures featuring 46 challenges including two 3-page and one 4-page puzzlers. The hundreds of numbers that fill each page arent organized in a way that reveals the image. Somehow, designer David Kalvitis has created masterpieces that emerge not as the dots themselves are connected, but as the

patterns between the dots are connected. That technique makes every dot-to-dot page a mysterious adventure until the final line is drawn. The completed pictures aren't standard fare, either. One finished puzzle features a woman frosting a cake. Yet another shows a tiger, complete with his markings, drawn from one continuous line connecting dots 1-943. There are straightforward puzzles in the traditional dot-to-dot style, and ones that require following dozens of steps. These pictures are dots that tell a story. My sons, ages 11 and 13, enjoyed working these pages together over the school holiday. Dot-to-Dot Adventure is a great project for maintaining focus and learning attention to detail. But the genius in Kalvitis's books is that he has built anticipation into all that effort which is rewarded with a slowly revealing and clever image. Remarkable and outstanding. 19 of 19 people found the following review helpful. The best dot to dot book ever! By Ronald Edgington The only time you will ever find a dot to dot book better than this one, is when #2 in this series comes out. It is a challenge that will keep the best of the dot to dot fans (including myself) up for hours during the night because they're just so hard to stop doing once you've started! Included in this book are two 3 page foldouts and one spectacular 4 page foldout, with over 2600 dots! This truly is the best dot to dot book ever created (so far!)

The Greatest Dot-to-Dot Adventure, (the 17th book in the Greatest Dot-to-Dot series) by David Kalvitis, carries on his tradition of skillfully utilizing dots to create the most amazingly complex and artistic dot-to-dot puzzles to ever hit the market. The Greatest Dot-to-Dot Adventure - Book 1 begins following a guide, an imaginative young boy searching for the missing pieces of a mysterious gift. Together, visitors will navigate challenging puzzles and unearth secret clues to discover new species of dots and spectacular views. One can even challenge themselves by scaling the 'Everest of Connect-the-Dots', a four page foldout puzzle comprised of a record breaking 2,600 dots. Kalvitis' goal was to raise the connect-the-dot bar even higher with his new 'Adventure' series. A simple story line that follows a boy around his home town looking for clues is a continuing theme in Adventure Book 1. The variety of images expected in Kalvitis' previous books are still present in this new offering, in addition the images of what the young boy sees 'connect' as the story begins to unfold. Speaking of unfolding, the new Adventure Book also contains two triple page foldouts, and one jaw dropping four page foldout with over 2,600 dots, the largest Dot-to-Dot in print to date. Kalvitis' new book also boasts a couple new puzzle styles as well as puzzles that give clues to other puzzles in order for you to solve them. Because of these interacting puzzles in addition to the new story line (both of which have never been done in an activity book of this type before), The Greatest Dot-to-Dot Adventure Book is even more interactive and exciting than ever before. Join us on the Adventure, because Dot-to-Dots aren't just for kids anymore!

The images are spectacular and it is a true challenge even for the best dot to dot enthusiast. If you've ever done any of David's previous books, then you know what you are in for in this one... Included in this book are two 3 page foldouts and one spectacular 4 page foldout, with over 2600 dots! -- Ronald Edgington "verified purchase" "We were all so excited to connect all the dots on each page to see what the object would be when the puzzle was completed. We never imagined the fun in working together to complete many of the pages." -- Hands-on evaluation mom "The Toy Man 2012 Product Guide" From the Author A Note from the Author Connect-the-dot puzzles are a fun, quiet activity that I always enjoyed as a child. As an adult, I found that all the books available were for young children just learning their numbers, with drawings that gave away the final pictures. Being a lifelong puzzle fan, I thought it would be fun to design a sophisticated and challenging dot-to-dot book for older kids. My objective was to create a magical dot-to-dot experience, not only by increasing the numbers and image quality, but also by inventing new and refreshing ways of creating pictures. Adults repeatedly tell me, "I used to love dot-to-dots as a kid!" One of the most satisfying surprises is that grown-ups enjoy the puzzles as much as kids. It is also exciting to hear of the numerous ways that the books have been used for teaching and rehabilitation. The Greatest Dot-to-Dot Books have won multiple awards and the puzzles can be found all over the world in newspapers, magazines, catalogs, various stores and on the Internet. I'd like to think it's because I've tried to push dot-to-dots to a new and unexpected level, striving to create a modern day dot-to-dot revolution! Have fun! From the Back Cover "David Kalvitis has the best set of dot-to-dot books you can purchase. The others are cheap imitations and don't come close to the 'world class' quality David brings to his work. He still creates every inch of these books by himself and his commitment to excellence has never wavered. The best thing about David's work is he is constantly fine tuning his craft to make the next book even better." - USA WEEKEND Frame Games author, Terry Stickels
