David Kalvitis : The Greatest Dot-to-Dot Book in the World (Book 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Greatest Dot-to-Dot Book in the World (Book 2):

Book 1 in this series is more like the Super Challenge books. I loved Book 1. It is a great mix of the easy and not-so-easy. So, when Book 2 arrived I was disappointed! It seems to be the easy and the very easy. There is nothing wrong with that if Book 1 had been done in a similar manner. It just really took me by surprise! I agree with other reviewers who say Book 2 is great for travel. The puzzles are more easily solved and less intense than those in Book 1. I don't know why the two books differ so much in format. That being said, kudos to Mr. Kalvitis for the best layout of any other dot-to-dot book I've seen. If you are brand new to the series, I recommend that you do Book 2 first and then go for Book 1. Please note: It has been graciously pointed out to me that I wrote this review based on "Adventure" Book 1. The best thing I can suggest is to absolutely disregard the above review!!!!

series is great--can't point to one better than the other

This whole series is great--can't point to one better than the other. Lots of fun. I see that there are other dot to dots on the market recently so maybe we (the whole family enjoys these) will try another series when finished with these but I'll tell you I much prefer this to coloring, which does not relax me at all! I get all tore up with symmetry when coloring intricate designs and it feels like a job. These are waaay more fun.

This series is one I have owned for years. SO fun for "kids" of every age -- bought initially for "tween" nieces and nephews who visited regularly and were "bored" with the adult conversations. Puzzles are challenging but not impossible. I definitely recommend buying all the set!

The Greatest Dot-to-Dot Book in the World Book 2 is the second in a series of connect-the-dot books which stand apart because of their complexity and variety. As in Book 1, there are traditional dot-to-dots as well as unique innovations and variations for those who can count into the hundreds and follow simple instructions. Readers will appreciate the fact that you can't tell what the images are before you start as well as the playful challenges that maintain excitement throughout this book of all new puzzles. This fun and relaxing book will entertain young and old alike! Ages 8-adult.
