Weta : The Hobbit: An Unexpected Journey Chronicles II - Creatures and Characters before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Hobbit: An Unexpected Journey Chronicles II - Creatures and Characters:

The Hobbit: An Unexpected Journey Chronicles II: Creatures and Characters explores the amazing cast of heroes, villains, beasts, and beings that populate Middle-earth in the first chapter of Peter Jackson's film adaptations of J.R.R. Tolkien's *The Hobbit*. Richly illustrated with behind-the-scenes photographs, digital renders, and film stills, this comprehensive book goes species by species and character by character through the film's huge ensemble cast and bustling menagerie of creatures, both physical and digital, and shows how each came to be realized for the film. First-hand accounts from the actors, makeup artists, digital effects specialists, dialect coaches, prosthetics technicians, movement coaches, and many other crew members describe the process and how the production unfolded, while also sharing insights into the characters. A bonus feature, unique to this book, is the special fold-out character size chart, which compares all the major creatures and characters of the film, from Radagast's hedgehog friend to the towering Stone Giants! Compiled by Weta Workshop designer Daniel Falconer and featuring a wealth of stunning imagery, this book puts the reader face-to-face with all the creatures and characters of *The Hobbit: An Unexpected Journey*, from the Dwarf heroes to the dark denizens of Middle-earth: the Orcs, Goblins, Trolls, and Wargs, of course, the hobbit

himself, Bilbo Baggins.
