Tony Rotella : The Killer Sicilian: Fighting 1e4 with the Kalashnikov before purchasing it in order to gage whether or not it would be worth my time, and all praised The Killer Sicilian: Fighting 1e4 with the Kalashnikov:

The Kalashnikov is an excellent choice for black to look to fighting chances. And this book not only provides great coverage and explanation of this opening, but also offers a full anti-Sicilian repertoire! The only thing I wish would have been included that was missing was coverage of lines where white plays an early Bc4. Overall an excellent overview of the Sicilian and in my opinion, its most

threatening line. 3 of 3 people found the following review helpful. Great opening
By PB Chess I am about halfway through and I greatly enjoy the book. I have also used this opening to fight a master friend of mine with decent results in blitz. If it wasn't for the clock I would certainly have more wins :) In the end I would recommend this book to anyone interested in the Kalashnikov. You will certainly enjoy yourself.

Are you searching for a new weapon against 1 e4? Look no further choose the Killer Sicilian!
In this book, opening expert Tony Rotella presents a Sicilian repertoire for Black, the backbone of which consists of the Kalashnikov Variation. The Kalashnikov is an ideal choice for those looking to take up the Sicilian. Black follows an easy-to-learn system of development, with clear strategic aims. What's more, in many lines Black can choose between aggressive and positional options. It's no coincidence that the Kalashnikov has attracted such attacking talents as World Championship candidate Teimour Radjabov and four-time US Champion Alexander Shabalov. Rotella critically examines the main lines and explains the key positional and tactical ideas for both sides. He also demonstrates what Black should do against White's numerous Anti-Sicilian options. Read this book and unleash the Killer Sicilian!
