Naughty Dog : The Last of Us: The Poster Collection (Insights Poster Collections) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Last of Us: The Poster Collection (Insights Poster Collections):

This is a bit of a let down because I've had to choose between which ones to put up. Additionally the first poster is attached to the binding with glue so it's non-removable. Otherwise the artwork is stunning. Might just get the same posters but bigger for a couple bucks with an or eBay search.4 of 4 people found the following review helpful. Great posters. Poor design strategy.By ThomasI love The Last of Us. My favorite game of all time. This is a great book for fans. Love it. Some beautiful art and good quality for posters. BUT...you will find yourself torn because they put the best pictures back to back. This happens in like 4 spots. Where you want both

sides but you can only choose one. Then they have like a bunch of awful pictures back to back like an ugly Clicker and a boring landscape....like okay, let's think about his. "NOBODY will ever hang these on their wall. Why not separate them?" Or maybe it was intentional so that some people would go ahead and buy 2!! More money. If that's the case, then SHAME ON YOU!1 of 1 people found the following review helpful. these turned out to be much better quality than I was expectingBy sarahthese turned out to be much better quality than I was expecting, they look great, they're pretty decently sized, and the thickness of the paper makes me think they'll actually last longer than a typical poster.which is good because, as others have said, they are printed on both sides (one of the few downsides), but because the quality is so good I don't think it'll be a problem to flip a poster to show the other side if I ever want to. the first poster is glued into the spine, unfortunately, but all it took was a bit of precision cutting with an exacto knife to make me happy.as for the posters themselves, I love the game so I love them all. I did notice a small flaw on one of the posters where it looked like the image from the one beneath it somehow stuck to it, but it's not bad enough to bother me, still gonna put it up. also kinda bummed there's no poster of Henry at all, though Sam is included in one. love the Dawn of the Wolf posters (too funny), and the concept art is incredible.all in all I'm a sucker for this game, so I admit I probably would've been happy with nearly anything, but I was very pleasantly surprised anyway.

Page after page of incredible visuals straight from the game or concept artists drafting table festoon the pages. They're all incredibly colorful, impeccably created, and printed on very high quality paper. Flipping through the pages brought me closer to a game that I already loved so much. It pulled me deeper into the lore and the psyche of each of the characters. In a sentence: This poster book is so good that I've torn out a number of the pages and had them framed.Geekadelphia
