Majora's Mask - Nintendo Official Guide ReviewBy Stewart PaganThe Majora's Mask Nintendo Official Guide is an excellent guide book for players looking for a walk-through of the classic Nintendo 64 game Zelda Majora's Mask. However, for the modern day collector, searching for a little more (Additional Concept Art, Great Writing, Interviews with the directors/producers, etc.) out of their guidebooks, this paperback does not deliver. I don't hold this against Nintendo, because, in 2002 there was no president for this type of content, but it's important to note that this guide exclusively covers in-game interactions.Also, despite the guide originally retailing for ~15 U.S. dollars, depending on the market, it has risen to quite the exorbitant price online due to the limited number of these items left in existence. If you're purchasing in order to collect, I won't discourage you, but, as I mentioned earlier, if you're looking for a quality walk-through of the game, you'd be better off reading or watching one of the multiple sources online that do just as well (if not better) than this one.0 of 0 people found the following review helpful. Very minimal wear and tear just like the seller saidBy ZeldaLoverMy husband was thrilled to receive this as a gift! Very minimal wear and tear just like the seller said. Very happy!0 of 0 people found the following review helpful. Five StarsBy dskuba2outstanding guide

A guidebook for the video game *Zelda: Majora's Mask*
