**Doug Walsh : The Legend of Zelda(R): The Wind Waker(TM) Official Strategy Guide (Signature (Brady))**

before purchasing it in order to gage whether or not it would be worth my time, and all praised The Legend of Zelda(R): The Wind Waker(TM) Official Strategy Guide (Signature (Brady)):

14 of 15 people found the following review helpful. I'm new with strategy guides...By S. MorganI don't use a lot of strategy guides, so my opinion might reflect my limited experience. But when we (my son and I) couldn't figure out what to do next or remember what we had already done in the WindWaker game, I decided to get the strategy guide. This guide is very well laid out and gives you needed information without spoiling the game for you. Half the fun of a Zelda game is the storyline, and this guide does not give away important plot development. Though I was able to find

important items located on each island without having to return to the location over and over again. (And it does take a while to sail around the world in that little boat!) I found the guide well thought-out and an invaluable aid in my 'virtual' quest. Another person commented about the lack of info on the Nintendo Gallery. I must agree about that. Though I have found (in my 4th play-through) that trying to get all those photos is a huge and fun challenge. This is just an added feature to give the game replay value. If you are dead bent on getting the details on the Nintendo Gallery, do a search online. Overall, I would highly recommend this particular strategy guide. 18 of 20 people found the following review helpful. Required Reading By Michael T. Rognlien I can't imagine being able to complete this or other Zelda games (Ocarina, Majora's Mask) without some sort of reference guide like this. The nuances and sidequests would just be wayyyy too much for the average Joe to figure out without some help. That said, while there are more "hints" built in to Windwaker, the guidebook is a great reference in finding hard-to-find items such as heart pieces, treasure, etc. It also has a pull-out map of the great sea with all of the islands and what can or cannot be found on all of them. This, in addition to the standard walk-through make the guide a great value. Throw in the walk-through for Ocarina of Time (for those who bought the Windwaker/Ocarina Master Quest set) and it's amazing it didn't cost more. Well worth the investment if you just HAVE to have every single item in the game. :) 1 of 1 people found the following review helpful. Helping you navigate through the world of Hyrule. By Customer First things first, just because you use any guide doesn't mean you are a cheater but want the best game experience possible. This will help you with your quest.
