Whimsical WonderfulBy Lily V.Such a wonderful art book!This art book is one of the best that I own, there's so much included in there in regards to development, behind the scenes and the characters. A lot of artbooks often have text but this one just has so much art, it's very diverse and whimsical. The book itself is printed very high quality and has a gloss spot cover. If you love The Little Prince you definitely need this.1 of 1 people found the following review helpful. Anyone who simply likes to look at beautiful things cant go wrong either. Its both fascinating and inspiring to read about the movie-magic tricks that were used to bring texture, lighting, effects, and different styles of movement to the stop-motion sequences, and to see the process of how a single scene comes together, from painting, to storyboard, to color script, to final render, right before your eyes. The care and passion that went into bringing The Little Prince from book to the Hollywood stage jumps off of every page. If the art book is an accurate indication, moviegoers are in for a marvelous treat. -VG Blogger gift guideAbout the AuthorRamin Zahed is the former editor-in-chief of the Los Angeles-based publication Animation Magazine.
