I was a little surprised at how small it is. The art work contained within is ok, nothing that really moves you.The big surprise was the bookbinding. My book literally fell apart at the seams the first time I went through it. Very poor job on the part of the printer.0 of 0 people found the following review helpful. This is a half sized book and not full sized ...By brian holcombThis is a half sized book and not full sized. but it does have a lot of pages. These are pics of peoples work not a flash book.7 of 7 people found the following review helpful. Great Book cheap craftsmanshipBy Steph4x4The book arrived in great condition but has deteriorated quickly. The

binding is falling apart, pages are coming out and it looks as though it has been used and abused even though it has been cared for well.
