It answers many, many crossword questions that you will never find anywhere else. First I received it as a gift, and then it was destroyed by being dropped into water, so I immediately replaced it--it's a 'must have' item!0 of 0 people found the following review helpful. GreatBy Walter CrusbergAnswers the many questions I have. The book stays about as current as possible with the harder and more modern answers present. Most crossword puzzles are changing to a two and three word type answer, so the dictionary has many of those in their content.0 of 0 people found the following review helpful. Excellent referenceBy Sally J. MorrisExcellent reference. Use it all the time for my crossword work, even as a reference for word definitions. Probably will get a revised addition in the future
