**Gabriela Zapolska : The Morality of Mrs. Dulka: A Play by Gabriela Zapolska (Playtext)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Morality of Mrs. Dulka: A Play by Gabriela Zapolska (Playtext):

Born during the tumultuous one-hundred-year division of Poland by Austria, Prussia, and Russia, Gabriela Zapolska (18571921) was an actor, journalist, and playwright who wrote over thirty plays in her lifetime. In her best-known work, The Morality of Mrs. Dulka, a tyrannical landlady harasses, exploits, and even prostitutes the eccentric cast of tenants who occupy her stone tenement building. The petty-bourgeois tragicomedy that ensues is regarded as a

landmark of early modernist Polish drama.

In her introduction to Zapolska's seminal play, Murjas discusses the many intriguing challenges involved in its cultural transference, combining the perspective of translator with that of theatre practitioner. This book is a rare treat in a much neglected area of modern scholarship.
