**John Manning : The New Mars** before purchasing it in order to gage whether or not it would be worth my time, and all praised The New Mars:

"Because of Blue Star Power it has gotten easier and cheaper to get to Mars, and Mars is being developed into a vacation spot. Mars dome is becoming three domes and there are tents going up with attractions and hotels in them. Rich investors are hoping that Mars turns into the next Disney Land and will help the development of Mars. There

isn't much to do at Mars yet but some of the workers have started making Pod Cars out of old rovers and machinery. The workers are racing the Pods over the harsh terrain of Mars and the word has gotten out about the races. The sciences of Mars have not been as profitable as hoped, so Mars Dome has helped the development of the Pod Races and the Tents. Mars is becoming an exciting vacation spot with the extreme sports and the Racing. "
