my bad for not reading the product description but, dang ya'll, this book is small! I assumed it would be a larger (8.5x11) book like I've purchased in the past. (I now know that those are the puzzle "omnibus" books) Alas, this book is a puny 6 x something. What's worse it that it was \$11 when I bought it - another reason I assumed it was a larger book. As I write this review, it's selling for less than \$7. Buyer beware indeed. The puzzles are still fun - challenging for me, but not so hard to make me pull my hair out - but the smaller size means small print and less clues per puzzle.² of 2 people found the following review helpful. I like this book By C. Goodwin I like this book. There are no puzzle titles or original publication dates on the puzzles. That information would be extremely useful on several of the puzzles where context makes the difference between an answer that's a pun, and one that just doesn't make any sense.³ of 3 people found the following review helpful.
