**From St. Martin's Griffin : The New York Times Little Red and Green Book of Crosswords** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The New York Times Little Red and Green Book of Crosswords:

I bought this for my husband for Christmas, as he's halfway through another Will Shortz crossword book and loves it. One night, on a whim, I thought I'd try a puzzle, despite never having been very good at it. I couldn't put the thing down and quickly started to get into the groove and, I must say, was pretty pleased with myself. So I'm

clearly not a crossword guru, but I can say I enjoy this. Just the perfect challenge for me. I love the way this book is made with the spiral binding. I have a Sudoku book (also Shortz) with the same construction and it's just as fabulous. Easy to work on a new page without having to fold/flatten the pages down. The edges don't fray like some spiral bound books do. I can take it anywhere and it doesn't get beaten up, as the front and back covers are hard. It's a built solid to last! 0 of 0 people found the following review helpful. and it was a wonderful gift to me By Nedra I found this at a yard sale, and it was a wonderful gift to me. No more clip board, tear-out crossword puzzle, especially in bed at night. I love the way the paper erases easily, how flexible the book is, how the difficulty of the puzzle progresses. I have purchased three copies for Christmas presents. 0 of 0 people found the following review helpful. Early puzzles too easy. By Decosphere Will usually does a great job, and there is a Christmas theme later in the book, but the early puzzles are so easy as to be boring drudgery. This is a good book for beginners. One excellent aspect of these books is the way they are bound. This makes them much much easier to use than a soft back book.
