Not a Pop Culture CrosswordBy Publisher ServicesThe title of this collection is misleading. It's simply a collection of NY Times crossword puzzles with the same amount of pop culture references as an average puzzle. Disappointing. If you want genuine pop culture puzzles try the People magazine books.5 of 5 people found the following review helpful. Perfect mix of old new pop cultureBy margieebieeI love this book! Usually I am usually skeptical about my ability to complete crossword puzzles from the New York Times, but found the difficulty level of these as "medium", which is what I was looking for. I usually find crossword puzzle books that aren't associated with a newspaper (the kind purchased at a large retailers like Target, Walmart in the magazine section) as far too easy, for reference.This was the perfect mix of new and old pop culture references. None too obscure, which is often the case in books labeled as regarding pop culture.
