The New York Times : The New York Times Sunday Crossword Puzzles Volume 39: 50 Sunday Puzzles from the Pages of The New York Times before purchasing it in order to gage whether or not it would be worth my time, and all praised The New York Times Sunday Crossword Puzzles Volume 39: 50 Sunday Puzzles from the Pages of The New York Times:

20 of 20 people found the following review helpful. Print too small By Jane Rasmussen I recycled the paper in this one. The print is too small to read. All the NYT puzzle books are on poor paper and poorly printed, but this one hits a new low. 22 of 23 people found the following review helpful. Horribly small print, impossible to read. By Inigo Some reviewers have complained about the font being so small that they need a magnifying glass to read the clues. That is an

understatement! The reality is that even Luigi Fermi's microscope would be of little help reading what has to be the smallest print in the world. Do they really make a negative font???, The New York Times, and St. Martins Griffin press should all be ashamed and embarrassed to have their names associated with such a rip off publication. Just so you know, I am not some geriatric shut-in with cataracts and/or glaucoma, but a reasonably healthy 56 year old man with average eye sight. Even with my reading glasses on this crossword puzzle book is a challenge, to say the least. I'm debating whether to return these two books or just leave them outside for the ants to work on. Maybe they can read the clues. 18 of 20 people found the following review helpful. Very Small Print! By Julia Guthrie I'm a voracious worder, and was excited to see this new collection of Sundays in the spiral format. I had great anticipation of it's arrival, as I was currently without an ongoing puzzle. Then, I was very disappointed when I opened it and found the print size to be friggin miniscule! And it didn't need to be---there was plenty of white space on entire page!! then, of course, I read that it was 'printed in China'---too damn much of this crapping our products, especially when printing is something we still have the resources to utilize here in the U.S. So, I was compelled to vent and let y'all know that this is a disappointing item, and it didn't have to be. Boycott crap!
