The NYT puzzles aren't what they used to be. I refuse to resort to Google for puzzle answers (though I suspect many a puzzle creator uses it to come up with some of their words), but sometimes a block of the puzzle has too many abstruse clues to solve without so doing. This is partly because there are way too many clues about pop culture for someone like me-- I don't watch tv (except news and sports), don't watch

movies, and could care less about contemporary music. In addition, the puzzle themes have gotten way too cutesy (you can't be sure that a five letter word has exactly 5 spaces allocated for it, for example). I still think they are the best puzzles around, but, for me, the fun is no longer there-- they are often frustrating and sometimes boring. 1 of 1 people found the following review helpful. Brain Food! By Glued Together I've been buying these books for several years now and I hope I never run out of new ones. The puzzles are challenging, but doable, and I generally work on each puzzle for a few days. Each one has a main clue suggested by the title and unless the main theme is a quote, there are a number of answers that support the main clue. I often find that an answer that completely escapes me one day, is clear to me the next day. I like to think a little puzzling each day helps keep my brain active and alert. 0 of 0 people found the following review helpful. Sunday Times Crosswords by the Book! By Marilyn P. Daggett Love these books! Great way to keep the mind sharp. I am always sad when I finish a book. That means I have been through a year's worth (50 weeks) of mental stimuli. And I learn something with every puzzle. Keep 'em coming! Will Short, you are my hero!

The Sunday New York Times crossword has been a beloved fixture for over sixty years. Its become Americas favorite and most famous crossword puzzle. This forty second collection of the Sunday puzzles features:- Fifty New York Times Sunday crosswords edited by Will Shortz- Puzzles over 50% bigger than the weekday crosswords- Covered spiral binding for easy stay-flat solving
