Tetsuya Miyamoto, The New York Times : The New York Times Will Shortz Presents Easy to Hard KenKen: 300 Logic Puzzles That Make You Smarter before purchasing it in order to gauge whether or not it would be worth my time, and all praised The New York Times Will Shortz Presents Easy to Hard KenKen: 300 Logic Puzzles That Make You Smarter:

2 of 2 people found the following review helpful. Lots of puzzles but only 4x4 and 6x6 By Charlie BlakeHiya, this

book has the potential for many hours of fun. I have only worked it for a couple of weeks, a couple of puzzles a day, and I am satisfied with it. The book contains only the 4x4 and the 6x6 puzzles, but it gives 150 of each. The puzzles are arranged from Easy up. The first 6 puzzles, Easy, in the 6x6 were not gimmes at all. I wish the book had that same harder cover that the Will Shortz "Gift of Kenken" book had. With the paperback being so thick and the 6x6 puzzles being so wide, I cannot easily hold it in my hands to work them. I hope the spine lasts. 4 of 4 people found the following review helpful. difficulty way over-rated By don_in_montana If you're reasonably good at Kenken, you will not find very many of these 300 puzzles to be "diabolical". The 5 x 5's can mostly be done just about as fast as you can write. There were about 20 puzzles among the 7x7s and 9x9's which truly fit the description. Still, I enjoyed them. 0 of 0 people found the following review helpful. Four Stars By Clare Swift Most of the puzzles were somewhat challenging. What is next in line, or one step harder?

KenKen has quickly become the successor to sudoku that the world's been waiting for! KenKen became the first puzzles to be printed in the daily editions of the New York Times next to its famous crossword puzzle. This New York Times edition of KenKen contains 300 easy to hard 4x4 and 6x6 size puzzles with "How to Solve" instructions and an introduction by puzzlemaster Will Shortz. The puzzles use all four mathematical operations and increase in difficulty like they do in the Times.

"[Will Shortz] is the crossword king."--Steve Kroft, "60 Minutes "The prince of crossword puzzlers."--"Greenwich Magazine "The Riddler's got nothing on Will Shortz."--"Time Out New York "Will Shortz is [the crossword book world's] John Grisham."--Martin Arnold About the Author TETSUYA MIYAMOTO, the creator of KenKen, is a math teacher who runs a unique mathematics class for grade school children in Japan where he practices "The Art of Teaching Without Teaching." His teaching method and use of KenKen in his classroom has proven extremely successful. His students regularly go on to be accepted at the most prestigious schools in Tokyo. WILL SHORTZ has been the crossword puzzle editor of The New York Times since 1993. He is also the puzzlemaster on NPR's Weekend Edition Sunday and is founder and director of the annual American Crossword Puzzle Tournament. He has edited countless books of crossword puzzles, Sudoku, KenKen, and all manner of brain-busters.
