**Tri "SlowHabit" Nguyen : The No-Limit Holdem Workbook: Exploiting Regulars** before purchasing it in order to gage whether or not it would be worth my time, and all praised The No-Limit Holdem Workbook: Exploiting Regulars:

7 of 7 people found the following review helpful. too hard to read on kindleBy L. FishThe NL workbook was offered as a kindle download; but it was too hard to read. the images of the card holdings could not be enlarged. I haven't tried using a magnifying glass, but in any case, I am disappointed that the fact that no one took the time to notice or resolve

this. And, I will have to be cautious with future downloads of other books I intend to read on my kindle. 3 of 3 people found the following review helpful. Good for starters  
By Darrick Dishaw  
Just posted my review of Nguyen's *How I Made My First Million From Poker*. Even though I liked that book, too, my bone to pick is the same. It needs more. While there are a wealth of examples in *Exploiting Regulars*, they are all at \$3/\$6, 6-max no limit hold'em cash games. How about a few examples above and below that limit or 3 handed or full ring? What if we're on the Button with 98 of hearts and there are two limpers in front of us? What if the Under the Gun min-raises, the Cutoff 3-bets, and we're in the Big Blind with JJ or AQ of spades? Those kinds of scenarios are never mentioned. By the way, *No Limits* by Wallace Stemple had nicely laid out color hand examples. I appreciated that a lot, especially as *No Limits* was a third of the price! Yes, the cost of *Exploiting Regulars* is also an issue. Why so much for so little? While the answers steer the reader in the right direction and I'm grateful for the "Important Notes" section which accompanies a few of them, I still could have done with more. What about a few personal stories or amusing (or tragic) anecdotes regarding those particular hands? I have a feeling that the fundamentals of his strategy was explained in *Let There Be Range*, which is so ridiculously expensive on , that there's no conceivable way I'd ever pay it... no matter how much it helped my game. However, we get the gist. *Exploiting Regulars* is better than nothing and reading it back to back with *How I Made My First Million* did teach me a few important lessons. Lack of elaboration earned this potentially awesome book only 3 stars. I would love to see an updated no limit hold'em cash game bible including all SLOWHABIT's books for \$100.
