**Robert M Overstreet : The Official Overstreet Indian Arrowheads Price Guide, 8th edition (Official Overstreet Identification Price Guide to Indian Arrowheads)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Official Overstreet Indian Arrowheads Price Guide, 8th edition (Official Overstreet

Identification Price Guide to Indian Arrowheads):

0 of 0 people found the following review helpful. Recommend for Indian Artifact loverBy LynnGreat book. Any arrowhead lover would love this book.0 of 0 people found the following review helpful. Five StarsBy Annette OttsGreat.0 of 0 people found the following review helpful. Very little other refs availableBy Rough CustomerSince there are few references available on point types, this was added to my reference library. Disregarding the prices, for the types, descriptions, etc. I have the Texas type book also. What puzzles me is why Overstreet has listed some types for Texas, which are not covered in the current Texas book, nor any of the old books (and I have them back to the second or so book from the 1960s). Example is the Texas point type Overstreet calls Edwards. Not in any other Texas books I find. No explanation by Overstreet. Not a bad reference for types, just wish there was a better one available, more akin to the 1960s book from Texas.

A price guide to Indian arrowheads.
