This book has more than just crossword puzzles; it also has word searches, spot the difference, a type of Sudoku, and 3 othersBy CustomerMy mom has been wanting a People Magazine Crossword book for awhile so I thought I'd buy this for her. Unfortunately (my fault I suppose for not realizing it had multiple types of puzzles), it wasn't just a crossword puzzle book. It also has word searches, spot the difference, a type of Sudoku, jumbo crosswords, trivia, and one other sort of crossword. They look entertaining enough, even though some of the puzzles come with very few directions. My mom seems excited about it though and the level of difficulty of the crosswords seem to be on par with normal People Magazine crosswords. If I need to, I'll post an updated review if she has something to say about it or if she becomes uninterested with it.1 of 1 people found the following review helpful. A great book with tons of puzzles!By AndreaI love the people crosswords but now that I

get the digital subscription I don't get them anymore. I have been wanting this for awhile and finally decided to get it. I was not disappointed. It has different puzzles in it. I prefer the crossword but enjoy a different challenge now and again. It is a older book which is good for me as I am not as up on the new celebrity's. Will definitely be looking into getting the other ones once I finish this one!1 of 1 people found the following review helpful. I really enjoyed the book itself but I was a little disappointed ...By CustomerI really enjoyed the book itself but I was a little disappointed that it doesnt tell you before you buy it that the puzzle date is from 2009 so it's pretty old along with older puzzles, I still enjoyed doing them but I'd like to have something more up to date but none of the bookw for sale tell you what year they we're published
